

The #1 Selling Office Suite for Handhelds!

"... easy-to-use, powerful and worth every penny" - CNET

Documents To Go 7

Premium Edition

Word, Excel & PowerPoint® Files On Your Handheld.

Your Most Important Office Files...With You At All Times

Leaving the office does not have to mean leaving your crucial files and work behind. Increase productivity on the road by using files right on your handheld. So now when you're on a long flight, you can easily create new documents or edit existing ones on your handheld – all without a laptop!

- **Work smarter** by having instant access to contracts, price lists, forecasts, PDF documents and much more.
- **Save time** by syncing, rehearsing and editing your PowerPoint presentations anytime, anywhere.
- **Be more productive** by creating and editing documents while on a plane or in a cab – it's even optimized for portable keyboards.

Only product to preserve original formatting using DocSync™ Technology

MS Excel spreadsheet on desktop

MS Excel spreadsheet on handheld

Supports password-protected files

Supports over 110 formulas

Toolbar makes it easy to create, format and edit spreadsheets

SUPPORTS:

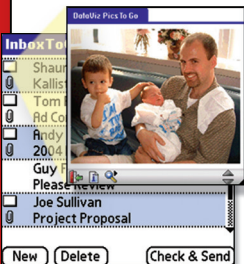

- Word, WordPerfect, Word Pro, AppleWorks, Palm DOC files, RTF
- Excel, Lotus 1-2-3, Quattro Pro
- PowerPoint
- PDF files
- Outlook e-mail with attachments
- Pictures & graphics
- Charting and more

PLUS, get a whole lot more with the Premium Edition!

E-mail with attachments, password protected file support, spell check, PDF files, pictures & charts all in one package!

Inbox To Go™

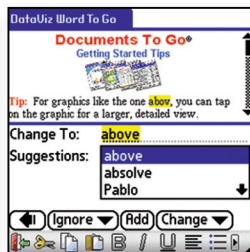

No need to take your laptop just to catch up on your e-mail or show off pictures of your kids.

Password Protection

Password protection ensures that only you can open your Word & Excel files.

Spell Checker

Spell check word processing files and eliminate embarrassing misspelled words.

PDF To Go®

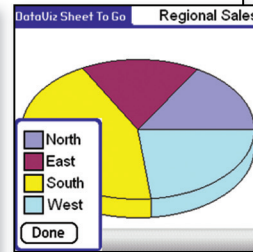

No need to maintain a separate application just to open text-based PDF files such as manuals & contracts.

Pics To Go®

Eliminate the need to manage a separate application just for viewing graphics and photos.

SmartChart™ Technology

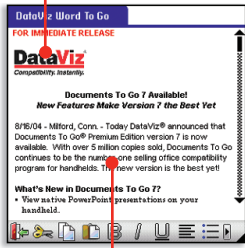

Open, edit or create Excel-like charts and really "see" your results on the fly.

Seamless integration with Word, Excel & PowerPoint®

With Documents To Go, there's nothing new to learn. Work on word processing, spreadsheet and presentation files on your handheld the same way you would on your PC. It's that simple. And getting your files onto your handheld couldn't be easier. You can just synchronize them to your handheld. Or for your native Word, Excel and PowerPoint files, use your expansion card as a "floppy disk" and access the files directly from the card without having to sync first!

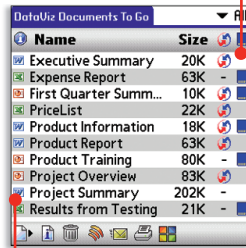

- Never lose formatting when syncing with DataViz's unique DocSync™ technology.
- No new interface to learn – Documents To Go has the familiar look and feel of the programs you have on your desktop.
- Don't worry about having enough handheld memory. Files are optimized and reduced in size for instant access on the handheld and can easily be stored on expansion cards.

Embedded graphics are supported for a "richer" view

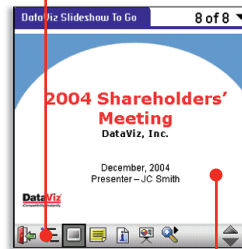

See more of your file with supported Hi-Res devices

Make your files portable by storing them on an expansion card

Supports Word, Excel, PowerPoint & JPEG in their native formats!

Choose your view: outline, notes & slide

Project presentations with Margi™ Presenter-to-Go

(requires Presenter-to-Go hardware & software)
